

# MOULDED RUBBER MATS FOR 911S 1967

I only sell the two rubber parts - not the complete mat.

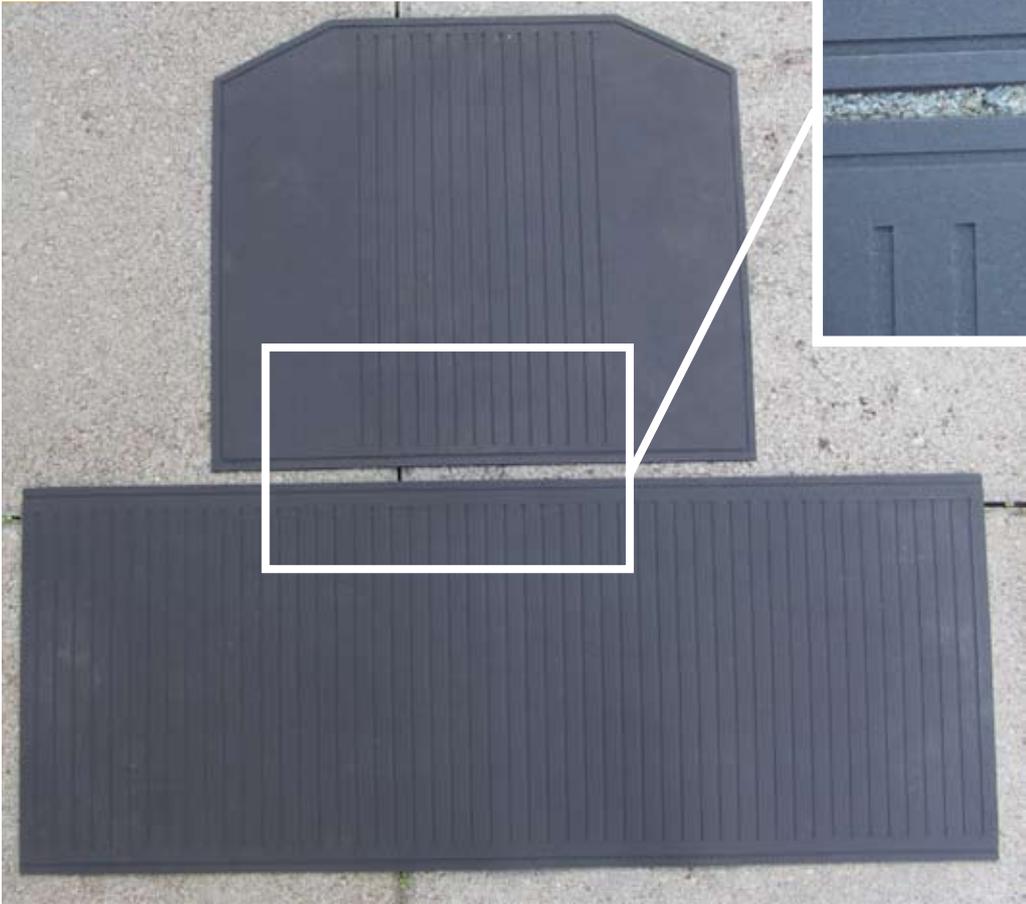

The rubber mats are made of finest swedish-made rubber (not asian material).

Thickness 2 mm.

They are copies of my original mats. See below!

The pictures shows both mats - for left hand drivers and for "centre-tunnel" on charcoal velour.

"Drivers" mat.

The new mat compared with my old original mat.

Rubber mat for centre-tunnel.  
Old verses new.

Close-up pictures of centre-tunnel mat.

For centre-tunnel.
